Sharetec Users Conference 2025

September 17th – 20th, 2025 | Boston, MA

As a leader in the core processing space for 35 years, we know a thing or two about credit unions and their technology needs. Each September, we invite our credit union partners to join us for four invaluable days of collaboration, networking, education, and, of course, fun. Our attendees get a first-hand look at everything Sharetec, including our key integration partners who make our system even more powerful.

Join us as a sponsor or exhibitor at our 2025 event!

“I have attended many conferences, and this by far is the most useful one as you all keep it relevant to the industry and have breakouts that make sense.”
